RE : LETTER OF RECOMMENDATION - A21 ACCOUNTING SOFTWARE

Our company was using other accounting system software before we switched to A21 software.

We have been looking around for an accounting software, which must be cost competitive, real time, user friendly and handle voluminous transaction.

After some evaluation, we decided to opt for A21. This is in view of its clear, simplicity functions, easy to use features and its cost.

It's been barely 2 months after implementation, we are glad that the software had meet our expectation. In fact, this software is as good as some of the ERP software, but only cost fraction compared to the latter.

Last but not least, their prompt technical support and after sales services had been excellent. We have no qualms in recommending this software to drive greater benefits from its use in the competitive business environment.

Yours faithfully,

Louis Leow Yong Kin

Senior Manager (Finance)
