Re: Letter of Appreciation

We are writing to express our appreciation for the support extended to us during the software implementation phase. Although some of the function and report presentation format still need to be improved and modified, we are still very impressed and satisfied with the A21 software. We observed a noticeable increased in productivity and efficiency after using the software which helps to reduce our operating costs, improve our working environment and prepare our company for future expansion.

We especially would also like to thanks James, Magaret, Chin Hwee and Kenneth for their patience, assistance and prompt response to our problems and queries.

Keep up the good work.

Faithfully Yours,

Raymond Lim
General Manager
